Q A A U T O M A T I O N E N G I N E E R

Professional Summary

Experience as Quality Assurance both in Manual and Automation testing of web-based software applications and client server applications across multiple technologies and platforms. Experience in every phase of Software Testing Life Cycle(STLC). Experience with working in an Agile environment. Successfully performed Smoke, Functional, Positive, Negative, Integration, Regression, User Acceptance Testing (UAT), End to End Testing Testings. Experience on developing Selenium WebDriver test automation frameworks using Cucumber, Java, JUnit, TestNG for testing and Maven as a building tool. Solid working knowledge of Java OOP. Extensively used test parametrization methods including Cucumber Scenario Outline and external data sources such as Excel and XML. Experienced in automation of REST service using REST Assured and tested both XML and JSON formats. Proficient in back-end/database testing by writing SQL queries and connecting to database using JDBC. Implemented POM automation Framework with Java, Selenium WebDriver, Junit and TestNG. Maintained the Selenium and Java automation code and resources in the GIT version control tool.

Work Experience

08/2022 **QA Automation Engineer**

Present

FineDine Menu

- Created Automation Testing Framework from scratch (JAVA, Selenium, Appium, Cucumber).
- Wrote test scenarios in Cucumber using Gherkin language in IntelliJ.
- Used Version Control for Automation Testing Framework using GitHub.
- Automated regression suit for another project using Cucumber POM Framework.
- Responsible for UAT.
- Performed Smoke, Functional, Positive, Negative, UAT.
- Experience in Smoke Test execution and decision as a team on Smoke Test Scenarios.
- Experience in UI Front-End testing with Selenium WebDriver, Appium, Maven, Page Object Model (POM), TestNG, JUnit.
- Experience in Cucumber BDD Testing Framework and reporting bugs as a Cucumber HTML Report.
- Experience in Jenkins to execute, setup and sending email of Smoke Test report.
- Experience in API test for manual – POSTMAN.
- Experience in API Automation with RestAssured.
- Experience in Mobile App automation with Appium.

06/2021 **QA Automation Engineer**

-
06/2022 ViewERP

- Wrote test scenarios in Cucumber using Gherkin language in Jira and IntelliJ.
- Performed Data Base Validation with the help of JDBC (Java Data Base Connection)
- Used Version Control for Automation Testing Framework using GIT.
- Automated regression suit for another project using Cucumber POM Framework.
- Responsible for UAT,also participated in Production Shake Out.
- Performed Smoke, Functional, Positive, Negative, Integration, System, UAT and Regression Testing.
- Experienced in automation of REST service using REST Assured and tested both XML and JSON formats.
- Experience in AWS EC2 to execute Regression Test with Selenium Grid.
- Experience in Smoke Test execution and decision as a team on Smoke Test Scenarios.
- Experience in UI Front-End testing with Selenium WebDriver, Maven, Page Object Model (POM), TestNG.
- Experience in Cucumber BDD Testing Framework and reporting bugs as a Cucumber HTML Report.
- Experience in Jenkins to execute, setup and sending email of Smoke Test report.
- Experience in APItestfor manual – POSTMAN, automation – REST Assured Library.
- Experience in Database testing: manual - SQL Developer, automation - JDBC.

02/2020 **QA Automation Engineer**

-
04/2021 Zibetra

- 1+ year QA experience as an QA Automation Engineer.
 - Working closely with development team on the implementation new features and bug fixing.
 - Executes semi-complex software test engineering and technical responsibility that involves analysis, programming, evaluation and black box testing
 - Understanding of black box testing, white box testing ,gray box testing and test automation.
 - Working closely with developer for bug analysis.
 - Experience in Smoke Test execution and decision as a team on Smoke Test Scenarios.
 - Experience in finding bugs and reporting using JIRA.
 - Experience in working Agile-Scrum methodology.
 - Experience in manually test execution.
 - Experience in finding location on DevTools using HTML or CSS.
 - Experience in Gherkin language to write Test Cases and Scenario outlines.
 - Experience in UI Front-End testing with Selenium WebDriver, Maven, PageObject Model (POM), TestNG.
-

Skills

Framework

Cucumber BDD, Karate

Languages

Java, HTML, Gherkin, SQL, JavaScript

Project Management Tool

Jira X-Ray

IDE

IntelliJ, Eclipse, SQL Developer, Postman

Testing Tools

Selenium WebDriver, TestNG, Junit, Cucumber, JDBC, Selenium Grid, Rest Assured, Appium

CI/CD Tool

Jenkins

Project Methodology

Agile-Scrum and all Ceremonies

Design Patterns

Singleton, POM, Pojo

Build Management Tool

Maven

CAD Tool

AutoCAD

Education

2015 - 2019 **Bachelor Of Engineering - BE**
Beykent University

Languages

English
Turkish

Certifications

2022 **ISTQB Foundation Level (CTFL)**
Credential ID 0522 CTFL 3260
